

Hi Helen, Let's List Together!

A picture is worth a thousand words! Tidy your place and click atleast 3 clear photos and always give the guest what they see in the photos

Think of the most stunning title and description of your place (e.g. What are its attractive features?)

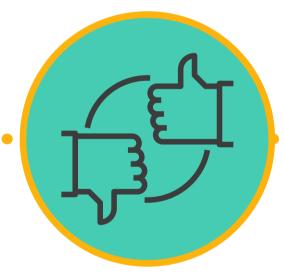

Make the most of your extra space by giving an accurate measurement

Don't forget to mention the pin code

Pick your price wisely and make your space available for as many hours or days as possible; who doesnt like making an extra buck?

Remember a happy guest will give you a good review, so give them the best amenities and facilities you can
